For a how-to video on application for
root touch up, scan the QR Code on side
of the jar.

For Root Color:

Color Jar and Developer Jar will be sealed and labeled. AS LONG AS THE JARS REMAIN SEALED THE COLOR WON'T OXIDIZE.

1. Unseal Jars.
2. Empty contents of the color jar and developer jar in the provided bowl.
3. Mix with the stick provided (Mix until blended and looks like a creamy frosting)
4. Part your hair down the middle.
5. Use color brush provided and paint color on the roots starting in the front at the middle part. MAKE SURE TO SATURATE THE COLOR WELL.
6. If excess color gets on your skin, you can use the clean touch color remover with cotton to rub away. DO NOT RUB OFF HAIRLINE.
7. LEAVE color on for 35min.
8. RINSE VERY WELL then Shampoo and Condition.
9. If you are glazing your hair at the same time, you can put the glaze on right after you apply your root color. Rinse out at the same time.

If you are: Applying Glaze Separately

Glaze Jar and Developer Jar will be sealed and labeled. AS LONG AS THE JARS REMAIN SEALED THE COLOR WON'T OXIDIZE.

1. Unseal Jars.
2. Empty contents of the glaze jar and developer jar in the provided bottle.
3. Shake GLAZE bottle up very well until color is blended. MAKE SURE YOU PUT YOUR FINGER OVER NOZZEL SO THE COLOR WON'T SPILL WHILE SHAKING.
4. Apply glaze all over on dry or damp hair. MAKE SURE TO SATURATE THE COLOR WELL.
5. Leave on for 20min. RINSE VERY WELL then Shampoo and Condition.
